

Meeting notes 2/12/20

Mandy has a report about the project from artist Zia. discussion. See Mandys notes.

We need to revisit the budget. Revisions are possible.

Reflection about accessibility for all abilities and skills -- how can we represent that insight in our final report? How could the process be different to accommodate people with disabilities and anxiety. KT gave an example of a project in Philadelphia where people get paid to paint on a mural, cash that day. We could use that example as a possibility.

Nick Carswell -- asking for support in getting in touch with Resident Specialist. Nick wants to record them, plus KT. Nick exploring Native American aspects of East Lawrence history for his project. Wanting connection to local tribes. Will meet with Mona's Jimmy Beason. Nick's assistant making East Lawrence recordings, making maps of sounds -- can click on a location for the sounds. "Digital Sound Map" for example, the sounds of South Park gazebo band night. Still looking for a location for his projections. Suggestions -- Turnhalle, 901 Pennsylvania, LAC satellite space on 9th, St Luke's basement,

Side Note from Nick -- City Website -- south park, story map, narratives of each tree in South Park.

St Luke Sunday February 23rd -- Big Choir Extravaganza

Calendar! Lane will experiment with how to make it more visible, and add all artist events.
